

SQLHawk Security Report

Target:

Risk score: 7.0 (high)

Strength score: 30.0

Generated at: 2026-05-12T22:00:01.074182+00:00

Findings

Connection failed

Severity: critical

The target database could not be reached or authenticated.

Recommendation: Verify host, port, and credentials. Ensure the DB is reachable.

Port scan skipped

Severity: low

Optional port scan could not be completed.

Recommendation: Ensure nmap is installed and the host is reachable.

Recommendations

Connection failed (critical): Verify host, port, and credentials. Ensure the DB is reachable.

Port scan skipped (low): Ensure nmap is installed and the host is reachable.
